Flower Gardens About The County

By Polly Mikosall

To continue mention of some of the more eye-arresting color displays set forth in pride by homeowners, take a look at the gay picture the J. L. Martin home at 709 Maple Street gives you. The home belongs to Mrs. Josephine Owen at 304 Chestnut St., the Holger Hansons at 402 Chestnut, and the Otto Petersens at 709 Chestnut all attract a second look because of the blooms nodding a greeting to each one who will glance their way.

The Claude Cardinal home at 302 Elm Street sports some very pretty blooms.

Several houses have not only window boxes, but also a small additional border either around the house or along the walkway to it. The Charles Long home at 307 Peninsula, the Carl Richards home at 410 Maple, the home of Mrs. Eva Sautter at 203 State St., that of the William Larush family at 105 Lake St., the George Skinner home at 411 Peninsula, Mr. and Mrs. John Knecht's home at 204 Park St., the Heng home at 604 Peninsula, all have such a combination.

Mr. and Mrs. Kip Papendick, who live at 801 Smith St., have the added touch of a gayly painted wooden barrel which looks like an earthenware strawberry jar. It is planted with hen and chickens and wandering jew. A window box on the opposite side holds flowers, and a border of huge zinnias runs close to the house front. The E. R. Burns home at 307 Spruce St. shows some blooms at their front door. Their real prize is the expanse of lawn at the back of the house, but that is not easily seen from the street. And speaking of lawns, which perhaps doesn't rightly belong in a story of flower gardens, there is one in Grayling which deserves mention because of its simple perfection. It surrounds the home of Mr. and Mrs. Alfred

SHOWERS HONOR BRIDE - TO - BE

Miss Barbara Plagens, whose marriage to Ronald Larson will take place September 21st at the Michelson Memorial church, was the guest of honor at two showers last week. On Tuesday night Mrs. Herbert Stephan, Mrs. Jack Church and Mrs. Ed Lowrie were hostesses at the Stephan home to a group of seventeen ladies. The evening was spent in playing games. Mrs. Bert Plagens, Mrs. Peter Stephan and Miss Anne Marie Church won prizes.

The gift table was covered with a white linen cloth on which were pinned pink parasols. On a higher table a boy bride and groom surveyed the gifts. Miss Plagens was assisted in opening her many lovely gifts by the Misses Karen Lowrie, Anne Marie and Carleen Church.

A luncheon of bridal bouquet salad, crackers, cup cakes decorated with miniature roses, and beverage was served. The refreshment tables held out cups on which were placed tiny colorful butterflies.

On Wednesday night of last week, Mrs. Thomas Haugh, Mrs. Phil Smith, Mrs. Carlyle Brown, Mrs. Richard Lowrie and Mrs. Rex Hawkins were the hostesses to Miss Plagens and 28 guests at the Haugh home.

An evening of cards entertained the ladies. Mrs. Ernest Larson, Mrs. Nelson Volmer of Dearborn, and Miss Plagens all won prizes.

A centerpiece of pink and white snapdragons, among which were tiny candles in flower holders traced the refreshment table. This was flanked by tall pink tapers in silver candleholders. Mrs. Ernest Larson and Mrs. Bert Plagens mother of the bride-to-be, poured.

That Growing Socialism . . .

We are approximately one-third socialized. And if the trend continues at the rate it has followed since 1929, in 50 years 99 per cent of our economy will be socialized and only one person out of 100 will be privately employed.

That startling observation comes from Emerson P. Schmidt, Director of Economic Research for the Chamber of Commerce of the United States. He points out that last year nearly one-third of the national income was channeled through government, either federal, state or local. He adds: "Just as human wants are unlimited and insatiable, it appears that the pressure for government intervention and expenditures is unlimited and insatiable."

Dr. Schmidt is particularly concerned with the continuing effort to load more and more activities and functions on the federal government. "As he sees it, 'We've seemingly become incapable of distinguishing between national problems and nationwide problems.' Washington now runs 54 grants-in-aid programs and 13 new ones are in the current budget—including one for assisting states to plant trees! The results are inevitable. The government bureaucracy grows. The proportion of our earnings taken by government tends to increase. More and more government controls and regulations come into being to the detriment of the free market. As a consequence, he finds, "... our growth rate has not been what it could be under more favorable tax treatment and less debilitating regulations." According to him, since 1946 our per capita real income—which is income adjusted for changes in taxes and in prices—has increased only \$182, or about \$18 per year per person.

Dr. Schmidt deals in considerable detail with the steady growth of governmental intervention in the fields of money and banking. Intervention has taken various forms at various times, including the forcing down of interest rates, guaranteed loans, easy borrowing arrangements, etc. And this, he writes, "the economy under com- in itation y pr-

WHAT EVERY MOTHER KNOWS

creates political pressures for direct government lending, direct controls, and regimentation. It must finally lead to capital investment rationing, compulsory saving, price and wage controls, profit controls, the allocation of labor to specific assignments—a regimented economy."

It is frequently said and commonly believed that the demand for new services and interventions by government comes from the people and so is irresistible. Dr. Schmidt characterizes that as "almost 100 per cent hokum and buncombe." He is convinced that the demand comes, instead, from a comparatively small number of researchers, writers and intellectuals. They get their ideas widely talked about—and then "... the politicians latch on to them and make them their own."

Is the situation hopeless? It is not, in Dr. Schmidt's view. Today, he feels, the basic drift of thought in the Western World is toward more conservatism—and that this drift can be capitalized upon. We can, he argues, get better representation at all levels of government. He makes his final point in these words: "If we each begin somewhere at the local level, within a few years we can change the socio-political climate in the direction of greater productivity and more freedom for all."

At the regular meeting of the Village Council Tuesday night, consideration was given the matter of engaging the services of an engineer and full-time employee to assist in village matters. The application of C. A. Miller of Saginaw for such a position had been filed and his proposal interested the members of the council and was accepted for a period of six months. Mr. Miller, his wife and two children will move here soon.

Miller attended school in Marshall and the U. of M. where he graduated in 1924 with a B. S. degree in engineering. He served 9 years as engineer with the State Highway department as structural designer for bridge construction. Since last fall he has been employed by the Midland County Road Commission on miscellaneous surveying, mapping and construction work. Mr. Miller comes well recommended and no doubt will be of valuable service to Grayling, especially during the time that our new waterworks system is under construction.

People who can easily pay any price say:

"Pay more... what for? Ford's the buy!"

Why? Because this 1957 Ford gives you the advanced features, the solid ride, the effortless handling that you once expected to find only in expensive cars. And when it comes to looks, where can you find fresher styling than in the sculptured-in-steel lines of this new Ford?

Ford's superiority is evident in many places. In the vital rear axle, the pinion gear that turns the rear wheels is straddle-mounted... supported between two anti-friction bearings instead of being "overhung" from a single bearing. This makes operation quieter, smoother and longer-lasting. It's a feature that Ford shares with only one other car maker in the world—Rolls Royce.

Or consider Ford's famous V-8 engine. No other manufacturer in the industry today electronically balances every V-8 engine, while operating under its own power, the way that Ford does. This means you get a smoother-running engine—the finest V-8 in Ford's 25 years of V-8 leadership.

These are only a few of the important hidden values that are yours in Ford. But they indicate why so many people who can pay almost any price for a car—people who have driven expensive cars for years—are buying Ford today. Action Test this great performing car at your Ford Dealer's just once and you, too, will ask, "Pay more... what for?"

YOU CAN SPEND HUNDREDS MORE... BUT YOU CAN'T BUY BETTER THAN THE NEW KIND OF FORD

One of the high lights of our barbecue was the four kids, Sid Newman, Sandy Hogman, Lee and Judy, who found some apples from a wild orchard. The good ones they sold for a penny, the ones not so good they made into apple tarts and turned in \$4.00. Don't you think that would make the older folks who walked off with the meat and kettles and two prizes ashamed of themselves?

Margrethe—The long picnic table was decked with baked ham, potato salad, cole slaw, hot rolls, relishes and coffee, prepared by Mrs. Barker. A huge bonfire gave the lighting effects. The evening was spent in harmonizing, dancing on the lawn, and a trip over the lake in Don Weaver's specially built cruiser.

Guests of Mr. and Mrs. Fred Bear over the weekend were Mrs. Caroline Piper of Detroit and daughter Miss Carol Piper of Vicksburg, Va., who were here to attend the Piper-Jarrod wedding on Saturday.

"THE HALL TREE"

Vera Wylie had the misfortune to fall down the basement stairs at Grandma Hall's a week ago Monday, and break her collar bone. Thank you Dr. Heug for your gentleness to a fearful, frightened little girl.

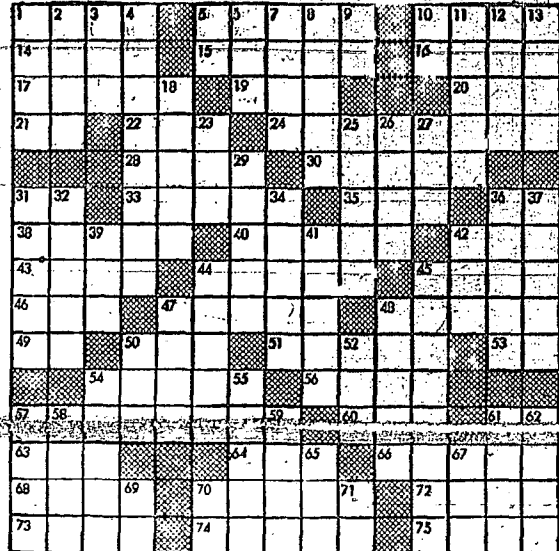

Milford Hall of Detroit spent Labor Day weekend at his home; Mrs. Hall is returning to Detroit with him after two months here. Hank and Ruby (Jennings) Beckman of Birmingham spent last week at their son's place on R. E. Reserve St. Hank and Milford enjoyed feeding their 'too small to keepers' to the nearly tame seagull on Lake Margrethe; it was such a huge one that they concluded he must be grandpappy to the others as they kept a respectful distance while he gobbled his fill.

Rob Gokel Jr. and family of Bay City visited the Beckmans and other relatives over the weekend. Steve Jennings and family of Hazel Park spent Labor Day weekend at their home in Shaw's Park. They have a lovely dock from which a number could view the canoe race.

Mr. and Mrs. Enos Jennings of Hazel Park and the Eddie Schutt family of Royal Oak were at Jungeleen Labor Day weekend. Thank you Carl (of Underground Forest) for the season ticket. June (Taylor), maybe I can accept your invitation next time. And now it seems the 'hall tree' will be barren for a spell as other things and places beckon.

Yellow Slippers

By JIM BOURRIE

"YELLOW SLIPPERS"

It is all remember the story of Cinderella's glass slippers. The popular "Yellow Slippers."

The latter become slippers only when accidentally stepped on. These yellow slippers are cultivated and grow upside down.

Bananas are said to be one of the first fruits eaten by man; cultivated in India for 4,000 years. They were called "Fruits of Paradise," because an old Roman legend said the tree flourished in the Garden of Eden. Historians say the banana was carried eastward during the great migrations from south-east Asia about the beginning of the Christian Era.

It is the most important fruit in all tropical lands... and a surprising record of use in the American home.

After a minute! Bananas daily... from a plantation thousands of miles away... and at a price you can afford. Compare a box with any other fruit and you'll see why the story bananas is a marvelous one in every day merchandising.

They're perfect for lunch boxes, salads or snacks. You'll love the quality of the bananas in our produce department. Our employees know how to handle and ripen them. Yes, We Do Have Bananas.

Hidden Taxes Take Big Bite In Crawford County Each Year

(Special to the Avalanche)

New York, Aug. 26 — You are spending much more than you realize, dear Crawford County taxpayers, to keep the wheels of government—Federal, State and local—rolling along.

As did most people, you thought you were paying about a sixth of your income for the purpose. That was the amount that was asked of you as a married man with two dependents and with average local earnings of \$3,420.

According to a recent study, however, you are spending much more than that through indirect taxes that make sneak raids on your wallet. In your case, these extras bring your total tax up to \$1,020 a year.

They are the unseen levies applied along the way on nearly everything you eat and use. You don't see them, because they are hidden in the price you pay for things. They have been added by the producers, manufacturers, middlemen and retailers who have had to pay them along the way.

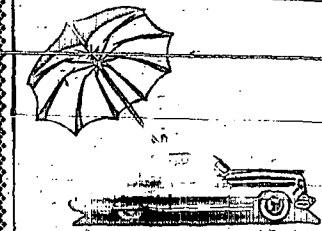

There is for example, the \$555 in taxes (\$288 visible and \$267 hidden) on a \$2,000 car. The hidden part consists of Federal excise on the radio and heater, license and title fees, local business taxes and many others. These are included in the selling price.

An analysis of these hidden taxes has been made by the Tax Foundation, a national, non-profit organization seeking more efficient government.

Application of its findings to Crawford County shows that local residents paid an estimated \$1,225,000 in the past year, directly and indirectly, to tax collectors. It came out of a gross income of some \$4,100,000.

This, in general, is what the Tax Foundation study shows: A family with income of \$3,500 pays \$772 to Uncle Sam alone. State and local taxes amount to another \$271, for a grand total of \$1,043. In other words, such a family pays nearly a third of its earnings in taxes, visible and invisible.

The \$4,500 family pays \$1,068 to Uncle Sam and \$357 in State and local taxes, a total of \$1,425. The \$7,500 family pays Uncle Sam \$1,964 and \$673 in State and
